Baby photo-session - £65

We come to you, all photo-sessions are done in the comfort of your own home where you and your baby are most at ease.

Henry's photographic approach is perfect for capturing the emerging character of your baby, no stressful posing just timeless and beautiful images.

A normal session lasts around two hours. The best images from the shoot are then viewed at a later date in the form of a slideshow from which you can choose the products you desire, from stunning hand-made albums and photobooks to beautiful canvas blocks and frames.

Multiple portrait sessions

Why not block-book three sessions to cover the first year of your baby's life for just £125; for example - newborn, 6 months & 1 year
